## WORK EXPERIENCE

### Oracle Cloud Infrastructure (OCI)

Software Engineer

Aug 2022–Present

- Leading a team of 18 software engineers (after being hand-selected by management six-months after joining the team) in resource management/allocation and Scrum events, as well as representing the group in discussions with senior managers and stakeholders.
- Executing the full CI/CD lifecycle, including developing hundreds of lines of code for new features, products, and bug fixes, writing and reviewing dozens of unit tests and pull requests, conducting regression testing, deploying code to pre-production and production environments, and documenting changes.
- Communicating with product managers, directors, and customers to improve our products, diagnose and correct bugs, and ensure higher-level management is tracking the team's progress.
- Mentoring both junior and senior engineers alike, guiding them on technical improvements as well as soft-skill development.

### United States Navy

Program Manager

Mar 2019–Jun 2021

- Managed anti-terrorism and safety programs, coordinating all related administrative functions.
- Created presentations using data analytics / global trends to lead planning boards and implement policies and best practices, resulting in a 20% decrease in security and safety incidents.
- Mentored and taught 16 colleagues in improving their skill sets, enhancing workforce flexibility.
- Ranked "Number 1 of 22 Division Officers" and, while on temporary assignment, ranked "Number 1 of 9 Divisions Officers", based on performance, productivity, and leadership.

Operations Manager

Jan 2017–Mar 2019

- Led 18 personnel through 20+ certifications, inspections, exercises, and a nine-month deployment to the Mediterranean Sea and Middle East, resulting in 9 staff promotions.
- Presented daily briefings to 50+ people, providing critical real-time information to superiors and directly impacting decision-making processes.
- Ranked "Number 1 of 11 Division Officers." The Commanding Officer remarked that "Alec is ready now for the most challenging assignments."

## SKILLS

- Proficient: Java, JavaScript, React, Next.js, React Bootstrap, Redux, Node, Express, REST APIs, Sequelize, SQL, PostgreSQL, HTML5, CSS, Git, GitHub, Bitbucket, Jira, Confluence, Chrome Dev Tools, Agile, DevOps
